Workshop on Function Spaces, Toulouse, November 16--19, 2016

List of Talks

Eric Amar — On Blaschke type conditions

Anton Baranov — Spectral synthesis in the space of infinitely differentiable functions

Konstantin Dyakonov — Factoring functions in star-invariant subspaces

Jean Esterle — An open problem concerning z-invariant subspaces on weighted Hardy spaces on the open unit disc

Konstantin Fedorovskiy — Univalent functions in model subspaces

Emmanuel Fricain — Multipliers between model spaces

Eva Gallardo — An insight on the invariant subspace problem

Andreas Hartmann — Range spaces of co-analytic Toeplitz operators

Pascal Lefèvre — Absolutely summing Carleson embeddings

Artur Nicolau — Inner functions in Hardy-Sobolev spaces

Hervé Queffélec — Approximation numbers and capacities

Pascal J. Thomas — Singular divisors of WEP functions

Mohamed Zarrabi — Szegö's theorem for truncated operators
